

Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Administrative Staff/OL

FROM : Chief, Transportation Division/OL

SUBJECT: CIA Legislative Proposal - FY 1958

DATE: OCT 4 1956

REF : Memorandum for DD/S from Legislative Counsel, CIA
Legislative Proposal - FY 1958, dated 14 August 1956.

The memorandum, reference as above, has been reviewed and comments on pertinent paragraphs are submitted herewith:

a. Paragraph 3. B

This Division agrees with the recommendation made by Mr. Paul regarding direct contact with the Bureau of the Budget. It is still this Division's opinion that it is highly important to remove from Public Law 110 the present exclusion of territories and possessions.

b. Paragraph 3. D

In addition to rescinding portions of the Foreign Service Travel Regulations as stated by Mr. Paul, proposed legislation S.4186 would also amend those portions of the CIA Act which cover storage and transportation of household goods. However, the proposed provisions are more liberal than those now found in Public Law 110 and in the opinion of this Division enactment of this proposed bill would be in the best interest of the Agency.

c. Paragraph 3. E

The provisions of HR 12193 are more liberal than those found in Public Law 110, as they authorize travel at government expense in connection with hospitalization of dependents of Agency employees stationed in overseas areas. However, the proposed bill is not completely satisfactory as it does not appear to authorize medical treatment or hospitalization for dependents at Government expense. It is, therefore,

~~CONFIDENTIAL~~

SUBJECT: CIA Legislative Proposal - FY 1958

recommended that legislation be reintroduced, similar to that granted the State Department by Public Law 828, 84th Congress, which does permit medical treatment and hospitalization for dependents at Government expense.
